### Foreword

It is with great pleasure that I cordially invite you to attend the 13th International Gas Union Research Conference (IGRC2011) in Seoul, Korea during 19 to 21 October 2011, hosted by the Korea Gas Union (KGU).

IGRC is No. 1 R&D conference in global gas industry to be held under the auspices of the International Gas Union (IGU). The IGRC provides gas researchers and other interested business partners with an excellent opportunity to exchange thoughts and ideas.

Recently, global gas industry is facing tremendous challenges like energy demand, the security of supply and climate change. Under these circumstances, it is indispensable to strengthen the competitiveness of natural gas through continuous investment in R&D. I am sure that IGRC2011 will provide you a great opportunity to learn of the latest development and trends in gas industry.

Building on its accumulated experience and expertise in hosting many international gas related events such as GASEX in 1998, IGU Council Meeting in 1999 and 2008, LNG13 in 2001, and IGU ICT2005 in 2005 KGU will make the IGRC2011 conference a successful one.

The venue city Seoul takes pride in having an extraordinary environment for hosting conventions and the venue COEX Convention Centre is No. 1 state-of-the-art convention facility in Korea.

I firmly believe that the conference will be a very successful one and you will also gain a great opportunity to enjoy the beautiful autumn in Korea.

I look forward to meeting you in Seoul next October.

Kap-Young RYU  
Chairman of  
IGRC2011 National  
Organising  
Committee

### Innovative Exhibition at the IGRC2011

*Would you like to show your innovation to members of the gas industry?*

Please submit your proposal before 30 April 2011

Click [here](#) to download the Call for innovative exhibitions

Click [here](#) to download the proposal form

At the IGRC2008, the exhibition of gas related innovations was introduced for the first time. It proved to be a great success. More than 40 innovations were displayed. The organisers of the IGRC2011 have decided to continue this initiative.

**Many delegates were interested in the exhibition during the IGRC2008 in Paris**

In the exhibition area of the conference, space is reserved for displaying innovative developments of interest to the gas business. They should be seen and "touched" i.e. typically a technology (or demonstration model or software on laptop computer). It should have been on the market not for a long time or under final development (near market introduction). The total reserved space is limited to 35 large (3mx3m) and 16 small (2mx2m) booths for exhibits.

More information can be found at [www.igrc2011.com](http://www.igrc2011.com). The Call for Innovative Exhibits will be distributed in January 2011.

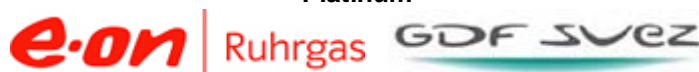

## Sponsoring

The Conference Organisers are offering companies the opportunity to sponsor the IGU Research Conference – IGRC and thus benefit from improved visibility for their companies, institutions or associations. Various sponsorships opportunities are available depending on the financial contribution.

### Diamond

### Platinum

### Gold
